New Holland T6 Tier 4B tractor

AGRICULTURE

NEW SEASON : NEW HOLLAND

New Holland is gearing up to help farmers through the 2017 season with a host of upgrades for T5 and T6 tractors and a new, highly efficient big baler.

Now Tier 4B compliant, the new **T5 range** of tractors are fitted with the FPT Industrial F5C engine with ECOBlue Compact HI-eSCR technology. Also, for the first time on the T5, you can now benefit from the Terraglide front axle suspension system which helps to ensure a silky smooth ride on even the roughest terrain; when paired with Comfort Ride cab suspension you've discovered the key to farming luxury. A new LED lighting package turns night into day for true around the clock working. The new 1000 ECO PTO setting will see your productivity soar and

your fuel consumption reduce.

Additionally, the new wide frame front loader offers higher stability, even when working with the heaviest loads at maximum extension.

New Holland **T6 tractors** are also upgraded to Tier 4B compliance with ECOBlue HI-eSCR engines which deliver the highest NOx conversion efficiency in the industry. This multi-patented system uses a new Engine Control Unit, which not only manages the engine, but also the HI-eSCR after treatment system by controlling the supply and dosing modules. Using a dedicated closed loop system, it continuously monitors the NOx levels in the exhaust gases, ensuring that during every cycle the precise amount of AdBlue is injected to achieve NOx

conversion of over 95 per cent, all while guaranteeing low fluid consumption.

The renowned AutoCommand CVT transmission offers precision speed control and two points of mechanical efficiency – one for field and one for road applications.

When it comes to comfort, the Dynamic Comfort range can be specified with an ergonomic swivelling backrest and the Auto Comfort seat with active heating and ventilation.

Like the T5 range, the T6 can be equipped with an LED worklight package for true 24-hour productivity.

Latest addition to New Holland's

New Holland BigBaler 1290 Plus

NEW SEASON : NEW HOLLAND Continued from front page

agricultural equipment line-up is the new BigBaler 1290 Plus, the company's largest square baler. This flagship model has a baler chamber which is 80cm longer, enabling 10 per cent denser bales to be produced at higher levels of productivity. Unique in the baler market, the BigBaler 1290 Plus features IntelliCruise technology for automatic tractor ground speed regulation, as well as SmartFill feed-flow indicators for more even bale formation. There's also a new

heavy-duty rotor option for demanding biomass operations.

In a real-world trial recently carried out in France the BB 1290 Plus baled 115ha in 17 hours, producing 1,254 bales of consistently high quality and shape averaging 434kg at an average capacity of 32t/h.

To find out more about these latest releases from New Holland, or to arrange a demonstration, please contact your nearest T H WHITE Agricultural branch.

SMALLEST ROBOTIC MOWER EVER!

The smallest and most affordable robotic lawnmower ever made is now available from T H WHITE.

Measuring just 53cm long by 42cm wide, the new Robomow RX range comprises the entry model RX12u, ideal for lawns around 150m², available to purchase from £499, and the RX20u – cutting up to 300m² following a programmable weekly schedule.

Both machines feature easy-to-use single button remote control and the RX20u can be controlled from a smart phone using the Robomow app.

Whist highly affordable, the RX models don't

skimp on features. With a floating cutting deck for a smooth contoured finish, as well as an 18cm solid stainless steel blade that can cut right up to the lawn edge, the RX gives an impeccable finish that even the most meticulous gardener would be proud of.

The RX makes automatic mowing more accessible than ever before and complements the RS and RC models in the already extensive Robomow range.

For more Information please contact Simon Knight on 07860 712963 or Tim Rochfort on 07973 911934 or drop into our Country Store at Marlborough.

GROUND CARE

WESSEX PROLINE AWARD

In only its second year as a Wessex ProLine dealer, T H WHITE Groundcare has won the Wessex ProLine Dealer Excellence award 2016.

The award reflects T H WHITE's highly proactive approach in arranging many demonstrations that have resulted in strong sales. Presenting the award, Wessex Sales Director Steve James cited T H WHITE Groundcare as a truly professional dealer with high standards of customer service and aftercare.

Receiving the award at the new Wessex headquarters in Andover, T H WHITE Groundcare director Tim Lane said: "We are absolutely delighted to receive this reward from Wessex in recognition of our efforts.

"Wessex is very focused on the professional machinery user with the ProLine range and this aligns very well with our overall strategy. With their local facility in Andover the support has been excellent and we look forward to strengthening our relationship well into the future."

KEEPING YOU SAFE & SECURE

Access Control systems

Simple pinpad entry units to PC programmed swipe readers can control access on any size of property with restricted areas to secure goods rooms. There are simply no restrictions. 1 door to 1000, we have the system to suit.

Intruder Alarms

From bells only to fully policed, monitored systems. We can install the right system tailored to you or your insurance company's requirements. Already have a system? T H WHITE can carry out your annual tests, with a friendly face and a service you can trust.

Fire Alarms

Business owner? Landlord? Health and safety manager? Our surveyors are fully accredited in system design and can work with you on any project to make sure you comply to the latest regulations.

Fire Extinguishers

We offer supply and maintenance of fire fighting equipment. Together with honest and accurate advice to keep you safe and compliant to the latest regulations. To add to this we offer safety signage and accessories such as cabinets, vehicle boxes and escape ladders.

CCTV & IP Cameras

For security, health and safety or machinery monitoring, we have the system for you. From fully HD conversions of existing systems to IP set ups we can future proof your CCTV installation. Coupled with our smart phone technologies you can monitor your system from anywhere in the world.

Electric Gates & Barriers

From bespoke domestic style electrical gates to commercial barriers and bollards. Physical security combined with security systems enhance the protection of sites and stop would-be intruders in their tracks.

LORRY CRANES

ON-SITE VEHICLE BODY REPAIRS

It's an unavoidable fact that due to the environments in which they operate commercial vehicles are susceptible to body damage. Whilst it's important to maintain vehicles in a good, safe condition, the situation everyone wants to avoid is having the vehicle out of action for extended periods while it is sent for repair.

It was to help operators maintain their vehicles in prime condition and minimise down-time that T H WHITE Lorry Cranes launched a mobile body repair service in 2015, which has proved extremely popular and effective.

Two specially-equipped vans are currently in service covering the Midlands, London, the South East and the Home Counties, carrying out on-the-spot repairs at times to fit in with your schedule. The repair service is also available in the north on request and it is

planned to add a third van specifically to cover the North of England.

The mobile facility with its workshop tools and extensive stock of parts is capable of undertaking a surprising range of repairs including dropside, side impact protection, rear under run and floors. Both vehicles are fitted with on-board generators and welders capable of all site welding, including aluminium.

Routine body inspections (T H WHITE's online compliance system) can also be carried out on-site and estimates can be provided for all repairs.

To find out more about our on-site commercial vehicle repair service call us on 01380 722381, then select 1 for Service, 2 for Breakdowns and Defects, 2 for Body Repairs, or visit our website, thwhitelorrycranes.co.uk.

GROUND CARE

EXPANDED GROUND CARE HIRE FLEET

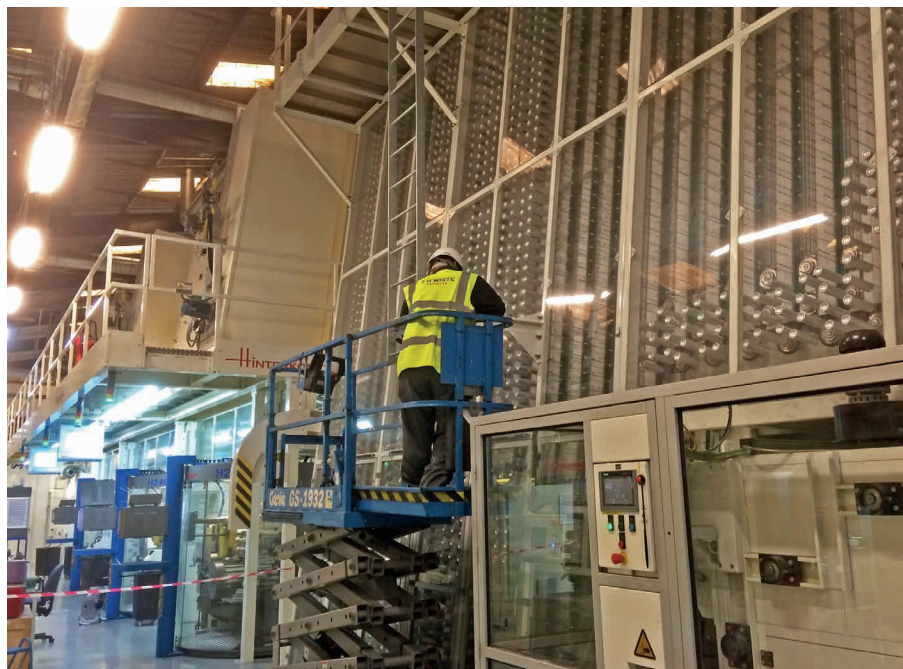

Although we can't forecast the weather for 2017, we can forecast the arrival of two new lorries for our Groundcare division's deliveries and collections. Operating from Knockdown and Reading these will strengthen our fleet, enabling us to get hire equipment to and from our customers faster.

We have also been enlarging our stock of mowers of all sizes to suit any job and these are augmented by scarifying and aerating equipment for private and commercial use. Additionally, we now supply a variety of chippers from 'fit-through-the-garden-gate' size to 'chip-the-entire-forest', so there will be one that's perfect for your job.

Spider and Robocut mowers - specialist, remote-control go-almost-anywhere machines have been added to our hire fleet too, as well as Wiedenmann aerators, core harvesters, and Profihoppers.

You can view the full selection of our hire equipment together with a price list on the website, thwhitegroundcare.co.uk/index.php/hire. If you wish to make an enquiry or just book in advance to avoid disappointment then please call Nick Short on 07887 982334 or 01454 238772, email: groundcarehire@thwhite.co.uk.

PROJECTS
ON THE BALL AND IN THE CAN!

After completing several successful structural steel platform installations for the utilities sector during 2016, the team has also been involved in assisting a local Devizes-based Company with some bespoke solutions for its production centre.

Ball Aerocan, a leading European supplier of extruded aluminium aerosol cans, has numerous factories located across the continent. The business commissioned T H WHITE Projects to undertake two separate contracts, comprising design, manufacture and installation of safe operating platforms at its Devizes plant.

The first application involved the new production Line No 57, recently installed to manufacture a new style of aerosol can. A number of access platforms were

required along the line adjacent to the three accumulator machines which gather the cans in a holding area until they are ready to enter the ovens where the paint is cured and made ready for further processing.

For the first contract T H WHITE Projects has completed three platforms along Line 57 at varying levels. The second contract was for an access platform that would enable the client's preventative maintenance team safely to inspect moving parts of another accumulator on a different production line.

Each installation had to be undertaken in a fully functional operating environment, thus requiring very close communication and carefully-planned programme co-ordination between

T H WHITE Projects and the Ball Aerocan team.

In each case the access platforms and associated ladders were designed and manufactured at T H WHITE's fabrication plant in Devizes, where structures can be produced either from mild steel or stainless steel to suit customers' precise requirements.

All the new systems were safely installed on time and within budget.

T H WHITE Projects specialises in grain processing and storage solutions of all sizes, from small farm installations to large commercial/industrial bulk facilities, taking each project from conception to completion. If you have a scheme you would like to talk about, please do contact us on 01380 723040 or email projects@thwhite.co.uk.

THE FOREMAN RAISES THE GAME

Honda has raised its game in the ATV market by introducing the new TRX500FM6 Foreman with power steering.

This is a powerful workhorse suitable for really tough tasks in tough conditions, while remaining light and easy to handle with a level of comfort not previously experienced on this model.

The extensive specification includes:

- Power steering
- Straightforward 5-speed manual gearchange
- Independent adjustable front and rear suspension
- Hydraulic front and rear brakes
- Increased towing capacity to 600kg
- Increased front and rear rack carrying capacity
- Increased seat comfort, ground clearance and mudguard protection
- Economical fuel injected, liquid cooled engine with instant starting and 'start in gear' facility
- 2 and 4wd drive on demand with difflock

Covered by a Honda two-year warranty and with low running costs, this is the ideal ATV for your shoot and farming tasks. Available in Country green or Honda red, we would be delighted to discuss this new model with you and to consider your current ATV (if you have one) in part exchange. Finance is available too.

For more information please contact Tim Rochfort on 07973 911934 (Toddington and Knockdown branches) or Simon Knight on 07860 712963 (Marlborough and Frome branches).

MACHINERY IMPORTS

NEW FERRIS & WRIGHT MACHINERY DEALER

The UK dealer network for Ferris and Wright groundcare equipment – supplied by T H WHITE Machinery Imports – has been strengthened with the appointment of Bridgend, South Wales dealer J G Plant.

Established in 1966, J G Plant grew rapidly and established a strong reputation in the agricultural, horticultural and construction sectors, dealing with many leading brands.

In 2013 ground engineering and landscaping specialists Inscapes acquired the family business of J G Plant and has continued to build on its strengths.

Managing director Gareth Rees is delighted at the appointment which adds quality Ferris and Wright equipment to their offering. Gareth's wife Allison and brother Owen are pictured with the first delivery of new machinery. J G Plant can be contacted on 01656 653200.
