

PRESS RELEASE

Palfinger UK to open New Service Centre in London

16th October 2024 - Palfinger UK is delighted to announce the signing of a long-term lease for a new Service Centre in London, strategically located to enhance connectivity and support for businesses in central and greater London. The new facility is conveniently situated just a mile from the south side of the Dartford Crossing and J1A of the M25. It offers easy access from key transport routes, including all four London airports and major South-East seaports, less than an hour away.

The impressive 13,090 sq. ft (1,216 sq. m) service centre will complement Palfinger UK's existing workshops in Devizes, Bradford, Falkirk and Leicester. This expansion will further bolster the excellent sales, service, parts and training offered on Palfinger cranes across the UK. Key operational features of this new facility will include eight dedicated workshop bays with an overhead crane, secure yard space with crane testing facilities, modern office and meeting spaces, and ample parking.

“Adding our new London service centre is an exciting investment which represents a significant milestone in Palfinger UK’s ongoing commitment to representing the Palfinger brand, and deliver world-class support to our customers,” said Stuart Todd, Managing Director of Palfinger UK. “Our senior leadership team has been working hard to bring this project to fruition for some time, and this step provides a long-awaited presence in this key location. As the official UK dealer of Palfinger cranes, this strengthens our ability to offer both existing and prospective customers, enhanced after-sale services, as well as improved access to our renowned sales, technical, parts and training portfolios. It will allow us to better meet the needs of more businesses across the region”.

In the coming months, the team will recruit, brand, and fit out the interior for operation. Follow Palfinger UK on social media for updates on this development and the official opening date.

About Palfinger UK

Palfinger UK is the official UK distributor for Palfinger lorry cranes and Epsilon construction, recycling and forestry cranes. With nearly 40 years of experience in Palfinger lorry crane distribution, and following the acquisition of Outreach Truck Ltd in 2018, Palfinger UK has become the nation’s largest provider of lorry loader cranes. The company offers comprehensive services, including in-house assembly, custom body-building, and full lifecycle support for your equipment.
