## **T H WHITE becomes new UK distributor for Jensen wood chippers**

**Bill Johnston (left), Business Manager of Jensen UK, with one of the long-standing Jensen dealers, Charles Walter of Arbrep Services Ltd.**

Jensen, 'the original wood chipper' has an enviable history of over 130 years of engineering and experience in developing market-leading wood chippers. The range is now being distributed exclusively by T H WHITE Machinery Imports throughout the UK.

Jensen has the widest wood chipper range on the market today, providing solutions for the high-end domestic client, ground care professionals, and for the commercial forestry and arboriculture industries across the UK.

Jensen chipper models are available tracked, trailed or tractor-mounted, solving issues with slopes, embankments or difficult terrain. For more challenging projects Jensen provide an innovative service of 'custom-build' solutions, often combining Palfinger Cranes or steel conveyor belts to make light work of the most demanding projects.

The best-selling Jensen model for ground care professionals in the UK is the A530L with a 150mm chipping capacity. Featuring synchronized hydraulic feed rollers, complete with adjustable roller speed controls. The A530L is manufactured with robust and efficient German engineering that you can rely on. A powerful 35hp Kubota diesel engine ensures both excellent performance and reliability of this machine, whilst maintaining a chipper weight of sub 750kg.

The launch of the Jensen Spider has enhanced the brand, creating a chipper that can traverse the most difficult terrain. Hydraulic variable tracks allow safe and speedy access even to difficult areas, saving professional users both time and money.

This world-class brand will further strengthen T H WHITE's offering to its ground care dealer network whilst continuing to work with Jensen's existing dealers across their UK territories – Arbrep Services Ltd at Alton, Dennis Barnfield Ltd at Carnforth, Riverlea at Pembrokeshire and West Wales, and Beaver Plant Ltd at York. Additionally, T H WHITE Groundcare will offer Jensen wood chippers through its branches in Reading, Tetbury, Redditch and Stockbridge. This experienced and carefully selected professional dealer network brings a wealth of sale and service expertise to assist clients in selecting the right wood chipper for their intended use and then maintain that equipment for its lifetime.

The new Jensen wood chipper range will be managed from T H WHITE's Stockbridge branch.

–Ends–

### **About Jensen**

German based Jensen Service GmbH was established in 1884 by Peter Jensen. Beginning production in a small village in the very north of Germany the company also built agricultural machines at that time and served local communities and authorities. Now market leading specialists in woodchippers, Jensen is the product of choice in Germany for contractors and end users in ground care and forestry applications where chipping is a need. Expansion in Europe and more recently globally to Russia, Japan and New Zealand has earned Jensen its international reputation as the original brand of wood chipper.
