T H WHITE COMPLETES ACQUISITION OF MURLEY IN WARWICK AND STOURPORT

T H WHITE Group has now completed the acquisition of Murley Agricultural Supplies Ltd, including its Agriculture, Construction, Garden Machinery & Smallholders & Estates operations at Warwick and Stourport. Murley's Vehicle business is not part of this acquisition.

Combining Murley's impressive track record in its trading sectors with the resources of T H WHITE – which has been in business since 1832 – will facilitate ever-increasing levels of customer service and support. For staff and customers it's really business as usual, with just a name change above the door.

At the Warwick branch Murley's Agricultural operations now trade as T H WHITE Agriculture and the Garden Machinery side of the business will continue under the T H WHITE Country Store & Garden Machinery brand. At the Stourport branch Murley's Construction operations now trade as T H WHITE Construction and the agricultural business now trades as T H WHITE Agriculture, as at Warwick.

The deal means that T H WHITE's trading territory for New Holland, Manitou and other leading agricultural brands has now been expanded to embrace Warwickshire and Worcestershire, while the Doosan construction machinery franchise at Stourport has been added to T H WHITE's existing construction offering from Manitou, New Holland and Mecalac.

The new T H WHITE branches are located at:

Nelson Lane
Warwick
Warwickshire
CV34 5JB
01926 494336

Sandy Lane Industrial Estate
Titton
Stourport-on-Severn
Worcestershire DY13 9QB
01299 827002

Opening hours remain the same and all the familiar faces will be there to help customers make the best choices for their business from an extensive stock of equipment and genuine parts. Added to that, customers will now be able to benefit from the businesses being part of a larger group that has built its reputation on helping people get the best from their machinery, land and buildings, across generations.

--Ends--

About T H WHITE: T H WHITE specialises in the supply and maintenance of machinery for multiple sectors including agriculture, construction, groundcare, and lorry cranes. In addition, it provides dairy installations, industrial and farm grain storage solutions, and installs fire and security systems and electric vehicle charge points.
